

	Course Name: ENG 101 Academic English		Department: Computer Engineering				Semester 1
	Methods of Education						Credits (ECTS)
	Lecture	Recitation (Etud)	Lab	Project / Field Study	Homework	Other	Total
	42					42	
Language Medium	English						
Compulsory/Elective	Compulsory						
Prerequisites	No Prerequisites						
Course Contents	<p>In this course, core skills - speaking, listening, writing and reading - are studied elaborately on academic level. The course employs integrated syllabus that addresses both process and product. It aims to help students acquire and practice the basic academic English skills, and apply them in their academic studies.</p> <p>* Attendance limit is 20 % for Academic English Courses. Those who cannot prove for their ill attendance officially will fail due to absenteeism.</p>						
Course Objectives	<ul style="list-style-type: none"> To integrate all four language skills and teach students how to integrate skills and content in real-world academic contexts. By explicit step-by-step academic skill development to lead to student mastery. With careful instruction and engaging practice tasks, students learn how to organize information, make connections, and think critically. To familiarize students with academic content. Authentic tasks include listening to lectures, note-taking, participating in debates, preparing oral and written reports, and writing essays. 						
Learning Outcomes and Competences	<p>At the end of the course, the students will be provided with significant academic reading texts in contemporary English to help them develop their reading, writing, paraphrasing and summarizing skills. They will also be provided with the opportunity to develop their listening and note-taking skills through listening to academic lectures, learn how to write academic essays and hold discussions on an academic level.</p>
