	RESEARCH AND ENTREPRENEURSHIP PROCESS	Document Code	003.PRS.002
		Publication Date	31/10/2025
		Revision Date	-
		Revision No.	
		Page	1

1- Process Owner:

- BAP Coordination Office
- Academic and administrative staff and students

2- Process Input:

- Requests from department heads
- Requests of teaching staff
- Student demands
- Graduate demands
- Demands of sector representatives
- Other stakeholder requests
- High-level policy documents (Development plan, etc.)

3- Sources of the Process:

- Teaching staff
- Administrative staff
- Government incentives
- Industrial collaborations
- Other financial grant, incentive and support mechanisms
- Projects
- Laboratory infrastructure
- Software infrastructure
- Hardware infrastructure
- Academic databases

4- Process Outputs:

- Published research
- Citation/patent/trademark numbers
- Awards, support, and grants received
- Supported articles/projects
- Rejected articles/projects
- Improvement and development results

	RESEARCH AND ENTREPRENEURSHIP PROCESS	Document Code	003.PRS.002
		Publication Date	31/10/2025
		Revision Date	-
		Revision No.	
		Page	2

5- Process Objectives:

- To increase scientific productivity.
- To increase academic recognition and contribution.
- To create impact at national and international levels.
- Transforming research findings into societal benefit.
- Developing new products and services that translate into intellectual property rights (copyrights, patents, etc.)

6- Risks of the Process:

- Wrong topic choices
- Insufficient literature review
- Resource shortages (personnel, infrastructure, finances, etc.)
- Failure to use or cite scientific outputs
- Failure to contribute to promotion criteria
- It does not contribute to ranking indices.
- Fiscal austerity measures

7- Opportunities of the Process:

- Strong academic staff
- Increasing the university's recognition
- Increase in student preferences
- Contribution to regional development.

8- Authority and Responsibilities Related to the Process:

- Senate: To determine academic advancement criteria and strategic directions for research activities.
- BAP: Evaluation, support, and monitoring of research projects conducted by university faculty members. Accepting project applications and implementing funding decisions after scientific committee evaluation.
- Technology Transfer Office (TTO): To support students and academics in developing business ideas and establishing companies, and to provide support for patenting, intellectual property rights, licensing, industry collaboration, and entrepreneurship.
- Administrative units: To provide administrative coordination of research and development activities.
- Academic units: Leading decision-making processes in line with research priorities specific to academic units.

9- Implementing the Process:

- BAP: Project application and evaluation processes
- Monitoring of broadcasts (Units)
- Academic databases (Library Department)

10- Process Suitability Criteria:

- Projects resulting in national/international publications.
- Publication of works in journals or books indexed in prestigious databases.
- Projects that generate revenue for the university
- Projects that contribute to the region

11- Process Performance and Measurement Criteria:

Research Quality (10 Indicators - 40%)
