

BMJ Journals Collection

Unlock a world of experience

Enhance your health science library with cutting-edge medical knowledge for the global community. Our comprehensive collection of medical journals spans 30 medical specialties, delivering expert insight, groundbreaking research, and authoritative content to your institution.

- Evidence-based research tailored to healthcare professionals, researchers, and policymakers
- Trusted global content that is highly cited and widely read
- Committed to editorial excellence, standards, values, and rigorous peer review processes
- Unlimited archive access, searchable by topic and covering over 186 years of high-quality medical literature
- Multimedia content, including podcasts, videos, online first articles, and blogs

ANESTHESIOLOGY

REGIONAL ANESTHESIA & PAIN MEDICINE

This authoritative journal provides regional anesthesia and pain specialists new research, guidelines and important information to treat their patients — from pediatric to geriatric. Content covers peer-reviewed scientific and clinical studies that advance the understanding and clinical application of regional techniques for surgical anesthesia and postoperative analgesia.

Featured content includes the latest anticoagulation guidelines and new research that avoids the overuse of opioids. The official journal of ASRA Pain Medicine.
